

MAHESH GARLAPALLY

+91 7780376316 — Hyderabad, Telangana

mahesh7780376316@gmail.com ♦ [LinkedIn](#) ♦ [GitHub](#)

OBJECTIVE

Cybersecurity trainee with **CEH (Certified Ethical Hacker) training** and hands-on exposure to **vulnerability assessment, penetration testing, web application security, and network security**. Seeking an **entry-level Cybersecurity Analyst / SOC Analyst / VAPT role** to support threat detection, risk mitigation, and secure system operations.

EDUCATION

Bachelor of Computer Applications, Chaitanya Deemed To Be University, Hyderabad 2023 – 2026

Percentage: 90

Class XII, TSWER / JC Boys Hathnoora, Sangareddy 2021 – 2023

Percentage: 81.6

SKILLS

Cybersecurity Skills	Ethical Hacking, VAPT, Web Application Security, Network Security, Risk Assessment
Security Tools	Nmap, Burp Suite, Metasploit, OWASP ZAP, Kali Linux
Technical Skills	Python (Basic), JavaScript, MySQL, HTML/CSS
Security Standards	OWASP Top 10, CIA Triad, CVE, CVSS (Basic)
Platforms	Linux, Git, GitHub, VS Code
Practice Labs	TryHackMe , Hack The Box

EXPERIENCE

Cybersecurity Intern May 2025 – Aug 2025
Uptoskills *Online Internship*

- Conducted **vulnerability scanning and penetration testing** using Nmap, Burp Suite, and Metasploit.
- Identified vulnerabilities including **SQL Injection, XSS, authentication flaws, and misconfigurations**.
- Applied **OWASP Top 10** guidelines to assess and reduce web application attack surfaces.
- Assisted in **network traffic analysis**, threat detection, and incident response documentation.
- Supported **risk assessment reports** to improve overall security posture.
- [Experience Letter](#)

PROJECTS

HM-BGRemover – Secure Web Application ([Live Demo](#)) May 2025 – Jul 2025

- Implemented secure API integration with emphasis on **input validation and error handling**.
- Reduced attack vectors through controlled data processing and exception handling.
- **Tech Stack:** HTML, CSS, JavaScript, Flask, REST APIs

TeacherX – AI Learning Platform (Frontend Security Exposure) ([Live Demo](#)) Jul 2025 – Aug 2025

- Applied **secure UI practices** and client-side validation techniques.
- Gained exposure to authentication flows and frontend security considerations.
- **Tech Stack:** HTML, CSS, JavaScript, Tailwind CSS

YT-Downloader – Web Tool ([Live Demo](#)) Aug 2025 – Sep 2025

- Improved **controlled input handling** and application stability.
- Optimized error handling to minimize misuse scenarios.
- **Tech Stack:** Flask, JavaScript, yt-dlp

CERTIFICATIONS

- **CEH (Certified Ethical Hacker) – Training Completed**
- [Cybersecurity Analyst Job Simulation](#) – Forage
- [Cyber Job Simulation](#) – Deloitte
- [Python Basics](#) – HackerRank

ACHIEVEMENTS

- Secured 2nd place in “Checkmate Challenge” (Chess), CUH Campus
- Secured 2nd place in General Knowledge & Current Affairs Quiz – Sunstone India
